On [April 12, 2006](#), Lou Dobbs had another enlightening segment on the illegals invasion. A short film clip is available for viewing at: [Click Here](#)

On this video clip, you will listen to Nativo Lopez, a spokesman for the militant sedition organization, Hermandad Mexicana Latinoamericana, proclaim that on May 1, 2006, illegals will shut down the ports in LA and rail lines. This anti-American militant spewed that nothing less than "full amnesty and dignity" for millions of criminals who have smuggled themselves into our country will be acceptable.

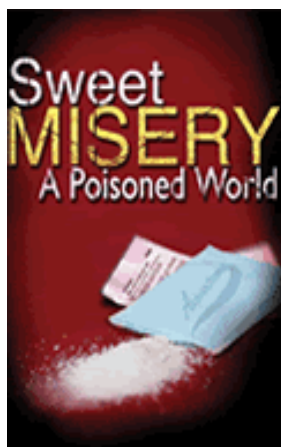

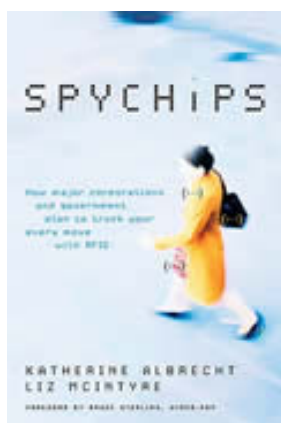

The sacking of the people's treasury to fund the illegals invasion has easily topped almost a half TRILLION dollars just in the last decade alone.

The reporter goes on to remark this May 1, 2006, "brown out" has clear Marxist overtones because of the support for the illegals by communists, socialists and anarchists. Another man shouted into the camera "We will shut down the ports." Well, now, if the ports are [knowingly employing illegals](#), then they should be charged with violating federal immigration law and the illegals rounded up and deported.

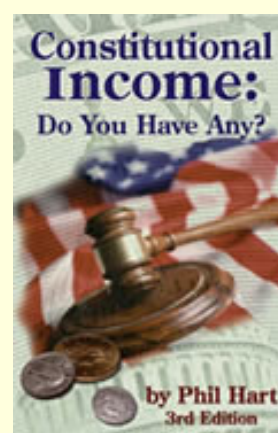

Also in this film clip is a perfect example of anti-American law breakers serving in public office. This time it's brain dead legislator, Gloria Romero, a California State Senator; she's the [Senate Majority leader](#) and highest ranking woman in the Senate. This is what Romero puked out: "Why would a lawmaker in Sacramento support this type of boycott? Because I represent citizens and non citizens alike." This type of clear support for illegal aliens who smuggle themselves across our borders by an alleged elected member of a state legislature is an abomination. Romero is a disgrace and should be run out of office, but she won't. Romero represents District 24 down in LA, an area overrun with an estimated 1.7 MILLION illegals. Her allegiance isn't to the rule of law, it's to Mexico. California tax payers were screwed to the tune of \$10.5 BILLION dollars last year to support Romero's "non citizens."

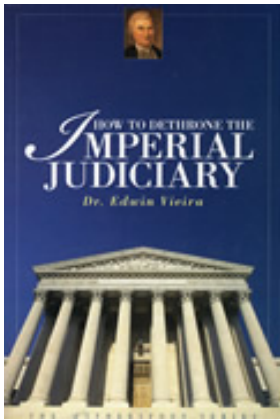

Remember these words from my past columns?

"If anyone's going to be deported, it's going to be you! ... Get out! We are the future. You're old and tired. Go on. We have beaten you – leave like beaten rats. You old white people, it is your duty to die. Right now, we're already controlling those elections, whether it's by violence or nonviolence.... " Augustin Cebada, information minister of Brown Berets, militant para-military soldiers of Aztlan shouting at U.S. citizens at an Independence Day rally in Los Angeles." And, "We're here today and we vote tomorrow." Yep, that's exactly how racist Antonio Villagarosa got "elected" mayor of Los Angeles: illegals voting."

Due to the cowardice on the part of Congress and talk of a so-called amnesty plan, which is nothing more than a cave in to pressure by a million criminals marching through American cities, a new and massive rush is on by illegals to smuggle themselves across the border ([news item here](#)). Congress takes this issue so seriously, they're on vacation and could care less about the danger to our border patrol or citizens along the paths where this renewed push of human smuggling is taking place. And, speaking of vacations, you should read this latest column by Phyllis Schafly titled '[Bush's Spring Frolic in Cancun](#)'. In this column, Schafly unleashes this bombshell: "We would like to see the shocking

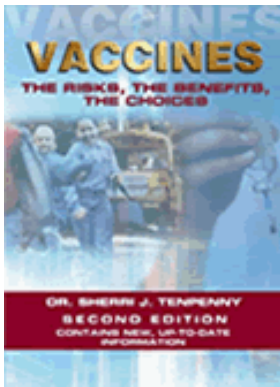

2004 campaign video just discovered by the Los Angeles Times, which Bush secretly mailed to Latino voters all over the country. Narrated by Bush, the video shows Bush waving a Mexican flag and describing U.S. citizens in Texas as foreigners in Mexico's native land."

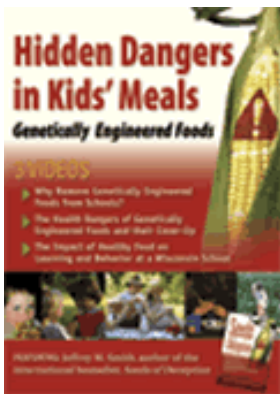

Illegals continue to take jobs away from Americans:

Arrival of aliens ousts U.S. Workers The Washington Times, April 10, 2006

"An Alabama employment agency that sent 70 laborers and construction workers to job sites in that state in the aftermath of Hurricane Katrina says the men were sent home after just two weeks on the job by employers who told them "the Mexicans had arrived" and were willing to work for less. Linda Swope, who operates Complete Employment Services Inc. in Mobile, Ala., told The Washington Times last week that the workers -- whom she described as U.S. citizens, residents of Alabama and predominantly black -- had been "urgently requested" by contractors hired to rebuild and clear devastated areas of the state, but were told to leave three job sites when the foreign workers showed up.

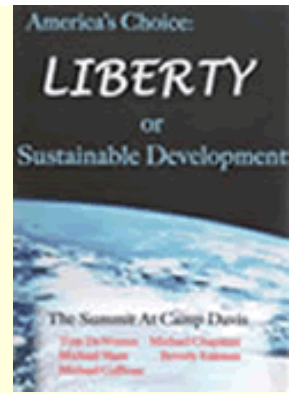

"After Katrina, our company had 70 workers on the job the first day, but the companies decided they didn't need them anymore because the Mexicans had arrived," Mrs. Swope said. "I assure you it is not true that Americans don't want to work. We had been told that 270 jobs might be available, and we could have filled every one of them with men from this area, most of whom lost their jobs because of the hurricane," she said. "When we told the guys they would not be needed, they actually cried ... and we cried with them. This is a shame."

"Mrs. Swope said employment agencies throughout Alabama, Louisiana and Mississippi faced similar problems, when thousands of men from Mexico and several Central and South American countries -- many in crowded buses and trucks -- came into the three states after Katrina, looking for employment and willing to work for less money. The number of foreign workers who flooded the area after the hurricane has been estimated at more than 30,000. Many of them have been identified by law enforcement authorities and others as illegal aliens."

Those companies that hired these illegals should be charged with felonies and their owners forced to serve jail time. According to this article, some of the NAMED companies were working on contracts for FEMA and other government agencies. Why are these agencies of the federal government

getting away with hiring those who have NO right to work in this country? More lunacy is exposed in this article: "Would-be employers in Alabama, Louisiana and Mississippi, awash in cleanup and reconstruction jobs, faced little in the way of legal problems in hiring the illegal aliens after Katrina because the Department of Homeland Security temporarily suspended the sanctioning of employers who hired workers unable to document their citizenship."

While those of Mexican or Latin American ancestry ignorantly parrot this is a race issue, I have pointed out many times that the issue is not one of race, but of making sure our laws are upheld, stopping diseased individuals from entering this country and spreading them, keeping out the criminal element, security and terrorists. By the way, while you're writing a check for more money today to the IRS on top of what's already been stolen from you during the year via this hoax called "withholding," between 2000 and 2004, Congress unconstitutionally picked your pocket to send \$3 MILLION dollars per year to fight TB in Mexico. There isn't a scintilla, not a single sentence in the U.S. Constitution, Art. 1, Sec. 8, which allows Congress to steal from you to fund this type of foreign welfare, and yet, the American people will vote back the same thieves to Congress election after election. It's a form of insanity.

On April 13, 2006, the Seattle Times carried a news item which reinforces my statement that it's not about illegals just from Mexico: U.S., Canada crack human [Pakistanis, Indians] smuggling ring, indict 14. "BLAINE — U.S. and Canadian officials announced Wednesday that they have broken up a human smuggling ring that charged up to \$35,000 per person to illegally funnel dozens of Pakistani and Indian nationals from British Columbia into Washington state.

"Wednesday's announcement came one week after 22 Chinese nationals were apprehended at Seattle's Harbor Island after being smuggled into the U.S. inside a shipping container aboard a cargo ship. The 22 stowaways told authorities they each paid a smuggling operation \$10,000 to get into the U.S. from Shanghai. But Winchell pointed out that the smuggling operation uncovered in Seattle represented a different facet of the \$10 billion per year human smuggling industry."

**Illegals' Amnesty Could Cost \$60 Billion a Year, Group Says
By Randy Hall/CNSNews.com Staff Writer/Editor April 11,
2006**

"(CNSNews.com) - If an illegal immigrant amnesty or guest worker program similar to the ones being contemplated by the U.S. Senate and supported by President Bush were enacted, the cost to state and local governments would be staggering, an immigration reform group charged Tuesday. The Federation for American Immigration Reform (FAIR) estimates that state and local costs associated with illegal immigration for public education, health care and incarceration, now about \$36 billion a year, would balloon to \$61.5 billion by 2010 -- a 70 percent increase -- and increase to \$106.3 billion by 2020. As a result of an amnesty and a vastly expanded guest worker program, millions of current illegal aliens would gain legal access to government programs and services, a FAIR analysis states.

"Moreover, newly legalized aliens would be allowed to bring their dependents to this country, adding to the burdens on schools and public health care. Similarly, state and local governments would have to provide for the education and health care of the dependents of the 400,000 new guest workers called for in the Senate proposal. "From every possible angle, an illegal alien amnesty and guest worker program would be a fiscal and administrative nightmare," said Dan Stein, president of FAIR. "Never mind the fact that an illegal alien amnesty is a moral betrayal of the American public and immigrants who played by the rules. "It would be an unfunded federal mandate that will bankrupt states, counties and cities all across the United States," Stein added.

"Contrary to claims by proponents of amnesty, the tax contributions of newly legalized illegal aliens would not offset the additional costs, he stated. The estimated 12 million illegal aliens in the U.S. are overwhelmingly poorly educated and low skilled. Even with legalization, their earning potential would be very limited, Stein noted. With the ability to legitimately claim dependents on their returns, their tax contributions would be negligible at best, and with programs like the Earned Income Tax Credit, many will actually get more back than they pay in. None of the federal or local costs associated with an illegal alien amnesty or a massive guest worker program has even been considered as part of the Senate's deliberations, he said.

"When asked point blank about the ramifications of their proposed legislation, Senate amnesty and guest worker supporters admitted that they have not been worked out. "The devil is in the details," said the ranking Democrat on the Judiciary Committee, Patrick Leahy of Vermont. 'The devil is in the details' is an utterly reckless and irresponsible way to conduct public policy," responded Stein. "The fiscal, social, environmental and demographic consequences of what the Senate is proposing would be staggering. A breakdown of the calculation of amnesty costs and a state by state impact analysis can be found at FAIR's web site."
