MORE ON SAUDI BLACK-OUT MONEY

As we mentioned in previous story, the greatest U.S./Canada black-out was to block the wire-transfers of Saudi funds deposited mainly in money center banks in New York.

The transfers scheduled to begin that Thursday afternoon, August 14, 2003, was to start with 98 Billion Dollars, part of upwards of One Trillion Dollars of Saudi monies in U.S. banks.

This was to have been a consequence of the bitter divorce between the Bush Crime Family/Carlyle Group and their now disgruntled business partners, the Saudi Royal Family. To try to divert attention from the treason of the Bushies, the occupant and resident of the White House began falsely blaming 9-11 on so-called "Arab terrorists" supposedly financed by the Saudi Royals.

The Arabs were NOT direct participants, just orchestrated patsies, to protect the crazies high up in the U.S. Military, and the same mindset in the American/British Aristocracy, for which the Bushies are scapegoats and stooges.

The pro-British American monopoly press as well as the press of the United Kingdom have suddenly come forward with accusations against the Canadian transit point of the Saudi flight capital, namely Toronto, as well as stories calculated to defame the Vatican, with their official banker the French Rothschilds being intended recipients of the Saudi funds to be transferred out of the U.S.

And how will the occupant and resident of the White House now deal with this? By declaring a National Bank Holiday, based on data that the major U.S. money center banks are insolvent (which they are and will be moreso minus the Saudi deposits) and that such banks have gambled away their assets on gold and oil hocus-pocus derivatives, putting the banks over the cliff by more than Thirty Trillion Dollars? And will the impending collapse of U.S. Treasury securities be a reason to block the Saudi accounts in the major U.S. banks, mainly in New York?

The pro-British American Monopoly Press as well as that of the United Kingdom have sprung into action to accuse those involved in the intended transit of the Saudi funds out of the U.S.

[1] A part of the intended route of the Saudi monies was to have been through Toronto, Canada, victim of total black-out. The British news service, Reuters, circulated an apparently false story that the leaders in Toronto were not available to deal with the black-out emergency.

[2] A major British publication, The Observer, linked to the Guardian of London, picked this very moment to circulate a story that there is reputedly a Vatican document in Latin, authorized more than four decades ago by then Pope John 23rd, commanding absolute secrecy on the accusations of sexual abuse by clerics. Violators, according to the reputed document, would be excommunicated from The Church. Is this a mere coincidence that the Vatican is thus lambasted at the very moment the Vatican along with the French Rothschilds was scheduled to have been the recipients of the Saudi flight capital?

[3] Another possibly related event, is that the representative of the Super-Secret Covert Operations Chief of the U.S. Treasury has demanded censorship of a Toronto-based weekly two-hour radio show, "Cloak and Dagger" with motto "Talk Radio for Spies!" The demand is that the website, www.cloakanddagger.ca of the show take down and redact certain documents proving treason by top U.S. officials. The excuse for this intended suppression? That it violates---now get this---the National Security of the United States, NOT Canada!
