Autopsy: No Arabs on Flight 77
By Thomas R. Olmsted, M.D

I am an ex Naval line officer and a psychiatrist in private practice in New Orleans, a Christian and homeschool dad. It troubled me a great deal that we rushed off to war on the flimsiest of evidence. I considered various ways to provide a smoking gun of who and why Sept 11th happened. Astute observers noticed right away that there were no Arabic sounding names on any of the flight manifests of the planes that "crashed" on that day.

A list of names on a piece of paper is not evidence, but an autopsy by a pathologist, is. I undertook by FOIA request, to obtain that autopsy list and you are invited to view it below. Guess what? Still no Arabs on the list. It is my opinion that the monsters who planned this crime made a mistake by not including Arabic names on the original list to make the ruse seem more believable.

When airline disasters occur, airlines will routinely provide a manifest list for anxious families. You may have noticed that even before Sep 11th, that airlines are pretty meticulous about getting an accurate headcount before takeoff. It seems very unlikely to me, that five Arabs sneaked onto a flight with weapons.

This is the list provided by American of the 56 passengers:

On September 27th, the FBI published photos of the "hijackers" of Flight 77:

Meanwhile, back at the ranch, the Armed Forces Institute of Pathology (AFIP), does a miraculous job and identified nearly all the bodies on November 16th 2001.

The AFIP suggest these numbers; 189 killed, 125 worked at the Pentagon and 64 were "passengers" on the plane. The AA list only had 56 and the list just obtained has 58. They did not explain how they were able to tell "victims" bodies from "hijacker" bodies. In fact, from the beginning NO explanation has been given for the extra five suggested in news reports except that the FBI showed us the pictures to make up the difference, and that makes it so.

Now, being the trusting sort, I figured that the government would want to quickly dispel any rumors so we could get on with the chore of kicking Osama/Sadaam's butt (weren't these originally two different people?). It seemed simple to me. . .produce the names of all the bodies identified by the AFIP and compare it with the publicized list of passengers. So, I sent a Freedom of Information Act (FOIA) request to the AFIP and asked for an expedited response, because we were getting ready to send our boys to war on the pretext that Osama/Sadaam had done the deed. Fourteen months later, a few US soldiers

dead, many Iraqi civilians pushing up daisies, and I finally get the list. Believe me that they weren't a bit happy to give it up, and I really have no idea why they choose now to release it.

No Arabs wound up on the morgue slab; however, three ADDITIONAL people not listed by American Airline sneaked in. I have seen no explanation for these extras. I did give American the opportunity to "revise" their original list, but they have not responded. The new names are: Robert Ploger, Zandra Ploger, and Sandra Teague. The AFIP claims that the only "passenger" body that they were not able to identify is the toddler, Dana Falkenberg, whose parents and young sister are on the list of those identified. The satanic masterminds behind this caper may be feeling pretty smug about the perfect crime, but they have left a raft of clues tying these unfortunates together. Stay tuned for part two to take a much closer look of the cast of characters on this ill-fated flight.
