Thank or Spank Your Senators for Their Vote on Social Security

On Tuesday March 15th, 50 US Senators voted to reject the Bush Social Security privatization scam! All Democratic Senators were joined by five Republicans to vote for a resolution that "Congress should reject any Social Security plan that requires deep benefit cuts or a massive increase in debt."

See how your Senator voted at right (sorted by state), then take a moment to...

- **Thank** those who stood with us (the "Yeas"), and
- **Call out** those who voted with their Wall Street friends instead of you (the "Nays").

When your Senators hears from you — and know that you're watching! — they'll be more likely to work for us all in the days ahead. The progress we've made — and continue to make! — in the fight to protect Social Security is encouraging, but the fight rages on, and we must keep up the pressure. Please write today!
