How the US Learned to Love the Bomb (Again)

How do you feel about a nuclear weapon that could be launched from the back of a jeep?

The slightly bizarre idea of 'user-friendly' nuclear weapons. On the whole score of proliferation we're always hearing plenty about the dangers posed by the Irans and North Koreas of this world but, as we're about to see, while all that has been going on the US itself has been quietly beavering away on a program aimed at completely upgrading its nuclear arsenal, including the development of tactical weapons - mini-nukes that could be used on the battlefield. Thom Cookes reports.

First broadcast - Dateline SBS - 03/02/06
